

Revision date: 08/03/2017

Revision: 3

Supersedes date: 03/06/2016

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

Product name Centrecoat Strongcoat HB - RESIN

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses Component of epoxy resin based system

Uses advised against None

### 1.3. Details of the supplier of the safety data sheet

Company : Promain UK Limited

C1 Pierson Court

Knowl Piece, Hitchin

Hertfordshire

SG4 0TY

Telephone : 01462 421333

E-Mail : info@promain.co.uk

### 1.4 Emergency telephone number

Mon-Thur (08:30-17:30) Fri (08:30-16:30) : 01462 421333

## SECTION 2: Hazards identification

### 2.1. Classification of the substance or mixture

#### Classification (EC 1272/2008)

Physical hazards Not Classified

Health hazards Skin Irrit. 2 - H315 Eye Irrit. 2 - H319 Skin Sens. 1 - H317

Environmental hazards Aquatic Chronic 2 - H411

Classification (67/548/EEC or 1999/45/EC) Xi;R36/38. R43. N;R51/53.

Human health The liquid is irritating to eyes and skin. Risk of sensitisation by skin contact

Environmental The product contains a substance which is toxic to aquatic organisms and which may cause long-term adverse effects in the aquatic environment.

### 2.2. Label elements

#### Pictogram

The Full Text for all R-Phrases and Hazard Statements are Displayed in Section 16.

**Composition comments** Epoxy resin blend.

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

|                            |                                                                                               |
|----------------------------|-----------------------------------------------------------------------------------------------|
| <b>General information</b> | Remove affected person from source of contamination.                                          |
| <b>Inhalation</b>          | Move affected person to fresh air at once. Get medical attention if any discomfort continues. |

Revision date: 08/03/2017

Revision: 3

Supersedes date: 03/06/2016

|                     |                                                                                                                                         |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| <b>Ingestion</b>    | Rinse mouth thoroughly with water. Give plenty of water to drink. Do not induce vomiting. Get medical attention immediately.            |
| <b>Skin contact</b> | Remove contaminated clothing immediately and wash skin with soap and water. Get medical attention if irritation persists after washing. |
| <b>Eye contact</b>  | Rinse immediately with plenty of water. Continue to rinse for at least 15 minutes and get medical attention.                            |

#### **4.2. Most important symptoms and effects, both acute and delayed**

|                            |                                                                                                             |
|----------------------------|-------------------------------------------------------------------------------------------------------------|
| <b>General information</b> | The severity of the symptoms described will vary dependent on the concentration and the length of exposure. |
| <b>Inhalation</b>          | This is unlikely to occur but symptoms similar to those of ingestion may develop.                           |
| <b>Ingestion</b>           | May cause discomfort if swallowed.                                                                          |
| <b>Skin contact</b>        | Skin irritation. May cause an allergic skin reaction.                                                       |
| <b>Eye contact</b>         | Irritating to eyes. Symptoms following overexposure may include the following: Redness. Pain.               |

#### **4.3. Indication of any immediate medical attention and special treatment needed**

|                             |                        |
|-----------------------------|------------------------|
| <b>Notes for the doctor</b> | Treat symptomatically. |
|-----------------------------|------------------------|

### **SECTION 5: Firefighting measures**

#### **5.1. Extinguishing media**

|                                       |                                                                        |
|---------------------------------------|------------------------------------------------------------------------|
| <b>Suitable extinguishing media</b>   | Extinguish with foam, carbon dioxide or dry powder.                    |
| <b>Unsuitable extinguishing media</b> | Do not use water jet as an extinguisher, as this will spread the fire. |

#### **5.2. Special hazards arising from the substance or mixture**

|                                      |                                                                                     |
|--------------------------------------|-------------------------------------------------------------------------------------|
| <b>Specific hazards</b>              | Toxic gases/vapours/fumes of: Oxides of the following substances: Carbon. Nitrogen. |
| <b>Hazardous combustion products</b> | Oxides of carbon. Oxides of nitrogen.                                               |

#### **5.3. Advice for firefighters**

|                                                      |                                                                                                       |
|------------------------------------------------------|-------------------------------------------------------------------------------------------------------|
| <b>Protective actions during firefighting</b>        | No specific firefighting precautions known.                                                           |
| <b>Special protective equipment for firefighters</b> | Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. |

### **SECTION 6: Accidental release measures**

#### **6.1. Personal precautions, protective equipment and emergency procedures**

|                             |                                                                                                                                                                                                  |
|-----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Personal precautions</b> | Provide adequate ventilation. Wear suitable protective equipment, including gloves, goggles/face shield, respirator, boots, clothing or apron, as appropriate. Avoid contact with skin and eyes. |
|-----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

#### **6.2. Environmental precautions**

|                                  |                                                                                                                                              |
|----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Environmental precautions</b> | Avoid the spillage or runoff entering drains, sewers or watercourses. Contain spillages with sand, earth or any suitable absorbent material. |
|----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|

#### **6.3. Methods and material for containment and cleaning up**

Revision date: 08/03/2017

Revision: 3

Supersedes date: 03/06/2016

**Methods for cleaning up** Absorb spillage with sand or other inert absorbent. Collect spillage in containers, seal securely and deliver for disposal as hazardous waste.

## 6.4. Reference to other sections

**Reference to other sections** For personal protection, see Section 8. See Section 11 for additional information on health hazards. For waste disposal, see section 13.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

**Usage precautions** Provide adequate ventilation. Good personal hygiene procedures should be implemented. Do not eat, drink or smoke when using the product.

**Advice on general occupational hygiene** Promptly remove any clothing that becomes contaminated. Wash contaminated clothing before reuse. Wash after use and before eating, smoking and using the toilet.

### 7.2. Conditions for safe storage, including any incompatibilities

**Storage precautions** Keep separate from food, feedstuffs, fertilisers and other sensitive material. Store in closed original container at temperatures between 5°C and 30°C. Store in a cool and well-ventilated place.

### 7.3. Specific end use(s)

**Specific end use(s)** The identified uses for this product are detailed in Section 1.2.

## SECTION 8: Exposure Controls/personal protection

### 8.1. Control parameters

#### EPOXY RESIN (Number average MW ≤ 700) (CAS: 25068-38-6)

**DNEL** Workers - Dermal; : 8.3 mg/kg  
Workers - Inhalation; : 12.3 mg/m³

**PNEC** - Fresh water; 0.003 mg/l  
- Marine water; 0.0003 mg/l

#### HEXANEDIOLDIGLYCIDYL ETHER (CAS: 16096-31-4)

**DNEL** Workers - Dermal; : 2.8 mg/kg  
Workers - Inhalation; : 2.9 mg/m³

**PNEC** - Fresh water; 0.0115 mg/l  
- Marine water; 0.00115 mg/l

### 8.2. Exposure controls

#### Protective equipment

**Appropriate engineering controls**

Provide adequate ventilation.

**Personal protection**

Always check applicability with your supplier of protective equipment.

**Eye/face protection**

If there is a risk of splashing, wear chemical resistant goggles or visor approved to BS EN166.

|                                        |                                                                                                                                                                                                                                                                                            |
|----------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Hand protection</b>                 | Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. Nitrile gloves to BSEN374 are recommended. Break through times can vary depending on thickness, use and source. Change gloves regularly. |
| <b>Other skin and body protection</b>  | Wear suitable protective clothing as protection against splashing or contamination. Wear apron or protective clothing in case of contact.                                                                                                                                                  |
| <b>Hygiene measures</b>                | Provide eyewash station. Promptly remove any clothing that becomes contaminated. Wash promptly with soap and water if skin becomes contaminated. Wash contaminated clothing before reuse.                                                                                                  |
| <b>Respiratory protection</b>          | Respiratory protection may be required if excessive airborne contamination occurs.                                                                                                                                                                                                         |
| <b>Thermal hazards</b>                 | None                                                                                                                                                                                                                                                                                       |
| <b>Environmental exposure controls</b> | Residues and empty containers should be taken care of as hazardous waste according to local and national provisions.                                                                                                                                                                       |

## SECTION 9: Physical and Chemical Properties

### 9.1. Information on basic physical and chemical properties

|                                                     |                     |
|-----------------------------------------------------|---------------------|
| <b>Appearance</b>                                   | Liquid.             |
| <b>Colour</b>                                       | Various             |
| <b>Odour</b>                                        | Characteristic.     |
| <b>Odour threshold</b>                              | Not determined.     |
| <b>pH</b>                                           | Not applicable.     |
| <b>Melting point</b>                                | Not applicable.     |
| <b>Initial boiling point and range</b>              | Not determined.     |
| <b>Flash point</b>                                  | >93°C               |
| <b>Evaporation rate</b>                             | Not determined.     |
| <b>Evaporation factor</b>                           | Not determined.     |
| <b>Flammability (solid, gas)</b>                    | Not applicable.     |
| <b>Upper/lower flammability or explosive limits</b> | Not applicable.     |
| <b>Other flammability</b>                           | Not applicable.     |
| <b>Vapour pressure</b>                              | Not determined.     |
| <b>Vapour density</b>                               | Not determined.     |
| <b>Relative density</b>                             | Not determined.     |
| <b>Bulk density</b>                                 | Not determined.     |
| <b>Solubility(ies)</b>                              | Insoluble in water. |
| <b>Partition coefficient</b>                        | Not determined.     |
| <b>Auto-ignition temperature</b>                    | Not applicable.     |
| <b>Decomposition Temperature</b>                    | Not applicable.     |
| <b>Viscosity</b>                                    | Not determined.     |

Revision: 3

Supersedes date: 03/06/2016

|                                                 |                                                                          |
|-------------------------------------------------|--------------------------------------------------------------------------|
| <b>Explosive properties</b>                     | Not applicable.                                                          |
| <b>Explosive under the influence of a flame</b> | Not considered to be explosive.                                          |
| <b>Oxidising properties</b>                     | Not determined.                                                          |
| <b>Comments</b>                                 | Information given is applicable to the product in its ready-to-use form. |

## 9.2. Other information

|                                  |                 |
|----------------------------------|-----------------|
| <b>Other information</b>         | None.           |
| <b>Refractive index</b>          | Not determined. |
| <b>Particle size</b>             | Not applicable. |
| <b>Molecular weight</b>          | Not determined. |
| <b>Volatility</b>                | Not determined. |
| <b>Saturation concentration</b>  | Not determined. |
| <b>Critical temperature</b>      | Not determined. |
| <b>Volatile organic compound</b> | Not determined. |

## **SECTION 10: Stability and reactivity**

### 10.1. Reactivity

|                   |                                                                     |
|-------------------|---------------------------------------------------------------------|
| <b>Reactivity</b> | There are no known reactivity hazards associated with this product. |
|-------------------|---------------------------------------------------------------------|

### 10.2. Chemical stability

|                  |                                        |
|------------------|----------------------------------------|
| <b>Stability</b> | Stable at normal ambient temperatures. |
|------------------|----------------------------------------|

### 10.3. Possibility of hazardous reactions

|                                           |                                                                                                                                                               |
|-------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Possibility of hazardous reactions</b> | Under normal conditions of storage and use, hazardous reactions will not occur. Considerable exothermic reaction can occur when mixed with epoxide hardeners. |
|-------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|

### 10.4. Conditions to avoid

|                            |             |
|----------------------------|-------------|
| <b>Conditions to avoid</b> | Avoid heat. |
|----------------------------|-------------|

### 10.5. Incompatible materials

|                           |                                                        |
|---------------------------|--------------------------------------------------------|
| <b>Materials to avoid</b> | Strong acids. Strong alkalis. Strong oxidising agents. |
|---------------------------|--------------------------------------------------------|

### 10.6. Hazardous decomposition products

|                                         |                                       |
|-----------------------------------------|---------------------------------------|
| <b>Hazardous decomposition products</b> | Oxides of carbon. Oxides of nitrogen. |
|-----------------------------------------|---------------------------------------|

## **SECTION 11: Toxicological information**

### 11.1. Information on toxicological effects

|                                       |                                      |
|---------------------------------------|--------------------------------------|
| <b>Toxicological effects</b>          | No information available.            |
| <b>Acute toxicity - oral</b>          |                                      |
| <b>Notes (oral LD<sub>50</sub>)</b>   | No specific test data are available. |
| <b>Acute toxicity - dermal</b>        |                                      |
| <b>Notes (dermal LD<sub>50</sub>)</b> | No specific test data are available. |
| <b>Acute toxicity - inhalation</b>    |                                      |

| <b>Medical symptoms</b>       | Skin irritation. Irritation of eyes and mucous membranes. |
| <b>Medical considerations</b> | Pre-existing eye problems. Skin disorders and allergies.  |

## EPOXY RESIN (Number average MW <= 700 )

### Acute toxicity - oral

**Acute toxicity oral (LD<sub>50</sub> mg/kg)** 2,000.0

**Species** Rat

**Notes (oral LD<sub>50</sub>)** LD<sub>50</sub> 20000 mg/kg, Oral, Mouse LD<sub>50</sub> 19800 mg/kg, Oral, Rabbit LD<sub>50</sub> 11400 mg/kg, Oral, Rat

### Acute toxicity - dermal

**Acute toxicity dermal (LD<sub>50</sub> mg/kg)** 2,000.0

**Species** Rat

**Notes (dermal LD<sub>50</sub>)** LD<sub>50</sub> 1270 mg/kg, Dermal, Mouse LD<sub>50</sub> > 2000 mg/kg, Dermal, Rabbit LD<sub>50</sub> > 1200 mg/kg, Dermal, Rat

## HEXANEDIOLDIGLYCIDYL ETHER

### Acute toxicity - oral

**Notes (oral LD<sub>50</sub>)** LD<sub>50</sub> 1400 mg/kg, Oral, Mouse LD<sub>50</sub> 2900 mg/kg, Oral, Rat

### Acute toxicity - dermal

**Notes (dermal LD<sub>50</sub>)** LD<sub>50</sub> > 2000 mg/kg, Dermal, Rat

## SECTION 12: Ecological Information

**Ecotoxicity** The product should not be allowed to enter drains, sewers or watercourses.

### 12.1. Toxicity

**Toxicity** Not available

**Acute toxicity - fish** Not determined

**Acute toxicity - aquatic invertebrates** Not determined.

**Acute toxicity - aquatic plants** Not determined.

**Acute toxicity - microorganisms** Not determined.

**Acute toxicity - terrestrial** Not determined.

**Chronic toxicity - fish early life stage** Not determined.

**Short term toxicity - embryo and sac fry stages** Not determined.

**Chronic toxicity - aquatic invertebrates** Not determined.

## EPOXY RESIN (Number average MW ≤ 700 )

|                                        |                                                                             |
|----------------------------------------|-----------------------------------------------------------------------------|
| Acute toxicity - fish                  | LC <sub>50</sub> , 96 hours: 1.3 mg/l, Onchorhynchus mykiss (Rainbow trout) |
| Acute toxicity - aquatic invertebrates | EC <sub>50</sub> , 48 hours: 2.1 mg/l, Daphnia magna                        |
| Acute toxicity - aquatic plants        | , 72 hours: > 11 mg/l, Freshwater algae                                     |
| Acute toxicity - microorganisms        | EC <sub>50</sub> , 3 hours: > 100 mg/l, Activated sludge                    |

## HEXANEDIOLDIGLYCIDYL ETHER

|                                        |                                                                            |
|----------------------------------------|----------------------------------------------------------------------------|
| Acute toxicity - fish                  | LC <sub>50</sub> , 72 hours: 30 mg/l, Onchorhynchus mykiss (Rainbow trout) |
| Acute toxicity - aquatic invertebrates | EC <sub>50</sub> , 24 hours: 67 mg/l, Daphnia magna                        |
| Acute toxicity - aquatic plants        | LC <sub>50</sub> , 48 hours: 23.1 mg/l, Fish                               |

### 12.2. Persistence and degradability

**Persistence and degradability** There are no data on the degradability of this product.

**Phototransformation** Not determined.

**Stability (hydrolysis)** Not determined.

**Biodegradation** Highly insoluble in water.

**Biological oxygen demand** Not determined.

**Chemical oxygen demand** Not determined.

### 12.3. Bioaccumulative potential

**Bioaccumulative potential** No data available on bioaccumulation.

**Partition coefficient** Not determined.

### 12.4. Mobility in soil

**Mobility** The product is non-volatile.

**Adsorption/desorption coefficient** Not determined.

**Henry's law constant** Not determined.

**Surface tension** Not determined.

### 12.5. Results of PBT and vPvB assessment

**Results of PBT and vPvB assessment** This substance is not classified as PBT or vPvB according to current EU criteria.

### 12.6. Other adverse effects

**Other adverse effects** None known.

## **SECTION 13: Disposal considerations**

### 13.1. Waste treatment methods

Revision date: 08/03/2017

Revision: 3

Supersedes date: 03/06/2016

## Disposal methods

Small quantities of product may be treated with an equivalent quantity of product hardener, allowed to cure and disposed of as low hazard waste. Large quantities should be disposed of via licensed waste operators to an approved incineration unit. Product containers must not be re-used without commercial cleaning.

## SECTION 14: Transport information

### 14.1. UN number

|                  |      |
|------------------|------|
| UN No. (ADR/RID) | 3082 |
| UN No. (IMDG)    | 3082 |
| UN No. (ICAO)    | 3082 |

### 14.2. UN proper shipping name

|                                |                                                                                               |
|--------------------------------|-----------------------------------------------------------------------------------------------|
| Proper shipping name (ADR/RID) | ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (EPOXY RESIN (Number average MW <= 700 )) |
| Proper shipping name (IMDG)    | ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (EPOXY RESIN (Number average MW <= 700 )) |
| Proper shipping name (ICAO)    | ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (EPOXY RESIN (Number average MW <= 700 )) |
| Proper shipping name (ADN)     | ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (EPOXY RESIN (Number average MW <= 700 )) |

### 14.3. Transport hazard class(es)

|                     |   |
|---------------------|---|
| ADR/RID class       | 9 |
| ADR/RID label       | 9 |
| IMDG class          | 9 |
| ICAO class/division | 9 |

### Transport labels

### 14.4. Packing group

|                       |     |
|-----------------------|-----|
| ADR/RID packing group | III |
| IMDG packing group    | III |
| ICAO packing group    | III |

### 14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant

### 14.6. Special precautions for user

|                       |          |
|-----------------------|----------|
| EmS                   | F-A, S-F |
| Emergency Action Code | •3Z      |

Revision date: 08/03/2017

Revision: 3

Supersedes date: 03/06/2016

**Hazard Identification Number** 90  
(ADR/RID)

**Tunnel restriction code** (E)

## 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

### SECTION 15: Regulatory information

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

**National regulations** Control of Substances Hazardous to Health Regulations 2002 (as amended).

**Guidance** Workplace Exposure Limits EH40.  
Safety Data Sheets for Substances and Preparations.

**Authorisations (Title VII Regulation 1907/2006)** No specific authorisations are known for this product.

**Restrictions (Title VIII Regulation 1907/2006)** No specific restrictions on use are known for this product.

#### 15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

### SECTION 16: Other information

**General information** Don Construction Products Ltd. Technical Datasheet.

**Key literature references and sources for data** Health and Safety Executive Guidance Note EH40 (amended annually). Workplace Exposure Limits.

**Revision comments** Section 1 update

**Revision date** 08/03/2017

**Revision** 3

**Supersedes date** 03/06/2016

**SDS status** Approved.

**Risk phrases in full** R36/38 Irritating to eyes and skin.  
R43 May cause sensitisation by skin contact.  
R51/53 Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.  
R52/53 Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

**Hazard statements in full** H315 Causes skin irritation.  
H317 May cause an allergic skin reaction.  
H319 Causes serious eye irritation.  
H411 Toxic to aquatic life with long lasting effects.  
H412 Harmful to aquatic life with long lasting effects.
